Digimatic Interface Input Tool RS-232C
1x Digimatic Input, Serial D-SUB 9 Cable
Item number: 264-007

Description

This D-SUB9 serial interface is a microcontrolled interface for connecting one single measurement device, with Digimatic output, to the RS-232C interface of a computer. It offers you the following benefits:

- Easily connect a measuring device to a computer's RS-232C serial port.
- No external power supply is needed, as the small level of power needed is supplied by the handshake lines RTS and DTR.

Specification

Footswitch connector:	**Yes**
