Design then print durable labels on your Mac or Windows PC

The P-touch P700 takes the hassle out of organising your office by clearly identifying the contents of file folders, archived documents, data backup discs/USB sticks and shelves. The inbuilt software allows you to use your PC's fonts and include images, logo's and frames on your labels. P-touch labels are available in many different sizes and colours to ensure that whatever label you need, the P-touch P700 can effortlessly produce them whenever or wherever they are required.

PT-P700 features

“The inbuilt label design software and fast print speed makes it so easy to create labels whenever I require them – simply plug-in and go”

P-touch laminated labels – designed to last

Brother P-touch laminated TZe tapes consist of six layers of materials, resulting in a thin yet extremely strong label. The thermal transfer ink is sandwiched between two protective layers of PET(polyester film), which protects the text against the effects of liquids, abrasion, temperature, chemicals and sunlight. As the labels have been tested to the extreme, you can be confident of a professional quality label that has been designed to last.

TESTED TO THE EXTREME

- Laminated
- Temperature Resistant
- Water Resistant
- Fade Resistant
- Abrasion Resistant
- Chemical Resistant
- Easy Peel
- Strong Adhesion
