

KERN TN 300-0.1US.

Hand-held thickness gauge

Measuring system

Measuring head diameter:	1,400 cm
Measuring range [Max]:	30 cm
Measuring range [Min]:	3 mm
Precision (of [Max]):	0,500 %
Readability [d]:	100 µm
Sound velocity (Max):	35924550,898 m/s
Sound velocity (Min):	3592814,371 m/s
Test frequency:	2,500 MHz
Weighing units:	mm

Display

Display digit height:	1,400 cm
-----------------------	----------

Functions

Scan mode:	yes
Statistical function:	yes

Environmental conditions

Maximum operating temperature:	40 °C
Minimum ambient temperature:	-10 °C

Power supply

Operating time:	100 h
-----------------	-------

Service

Factory calibration certificate:	961-113
----------------------------------	---------

Category

Brand:	Sauter
Category:	Material thickness gauges
Product Group:	Ultrasonic thickness gauge

ISO

+4 DA
