

TOMKAT v2 & SIGEN 2+

P.A.C.T. Services Ltd
Pipe & Cable Avoidance Tools
Are user friendly performance locators
designed to Pinpoint the exact position
of buried pipes or cables

With the ever increasing requirements for more information,

we have introduced the **TOMKAT v2**. The **TOMKAT v2** locator offers 3 modes of detection. These are Power, Radio and Genny a visual display via a full LCD screen also helps in ease of location.

P.A.C.T Services Ltd
Started designing and manufacturing locators in
1999. And have made significant progress in the
creation and production of original pipe and cable
location equipment. The original **TOMKAT & SIGEN**
and its predecessors have established themselves as
quality industry standard locating tools selling Worldwide.

The **SIGEN 2+** signal transmitter incorporates both high & low Volume.
The high volume helps hear a better connection tone the low volume allows the use in quite locations.
Along with this the **SIGEN 2+** has a Low output 0.25-watt & High output 1.0-watt.

The **TOMKAT v2** along with the **SIGEN 2+** offer many features designed to assist in the avoidance of buried services. This along with the manufactures calibration ensures your equipment is in good working order. This will significantly help in reducing your strike rate. Whether you are new to the **TOMKAT** or an established user there is no doubt that this location equipment is exactly what your business needs.
