

# K32 TWIST-IT

Introducing the latest ratchet bootlace ferrule crimping tool with a flexible 'Twist'.

This new model to the crimping tool range is suitable for single and double entry bootlace. It creates secure connections with a single profile, allowing greater flexibility and comfort - even in confined panels.

- **Highly flexible operation**
- **Twist-It for 'straight' or 'side' application**
- **Large range 0.14 - 10 mm<sup>2</sup> (single) 0.25 - 4.0 mm<sup>2</sup> (double)**
- **Compact tool frame good for confined use**
- **Small, light and ergonomic**
